## **V. Conversions and Exchange Rates**

The Bank applies buying rate in case the account to be debited is a foreign exchange account and selling rate in case the account to be debited is a HUF account for transfer between foreign exchange and HUF accounts. For transfers between accounts managed in different foreign exchanges (e.g. USD and EUR accounts) - in case the Bank does not apply cross-currency exchange rates – the exchange will be made as follows: the amount to be debited is to be exchanged to HUF on buying rate and then the HUF amount is to be converted on selling rate of the foreign exchange in which the account to be credited is managed.

The conversion is made by usage of buying rate in case of credit foreign exchange amount onto HUF account and selling rate in case of credit HUF onto foreign exchange account.

In case of cash desk transactions the foreign currency payment-in to HUF account and HUF payments from foreign currency account is converted on buying rate and the HUF payment-out to foreign currency account and foreign currency payment-out from HUF account is converted on selling rate.
